

**For Release:** February 1<sup>st</sup>, 2010

## **OMT Technologies Releases iMediaTouch V4**

**Winnipeg, Manitoba – OMT Inc. (TSXV: OMT):** OMT Technologies is pleased to announce the release of iMediaTouch Version 4.0 Radio Automation Software that includes an advanced client Graphical User Interface and over 25 new feature enhancements.

Version 4.0 responds to client feedback, technology advancements and OMT's commitment to remain the leading broadcast automation solutions provider.

While not the complete new feature list, some of the new iMediaTouch V4 attributes include:

- New graphical user interface providing greater user defined flexibility and feature access
- New multi-blade design with a more dynamic segue editor and enhanced air studio recorder
- Ability to drag-and-drop onto a showlog page for instant changes to the hot key pages
- Ability to include your radio station logo on the main on-air screen
- Enhanced keyboard functions to allow the user better control of the voice track module
- New back time feature in voice tracking to better calculate time remaining
- Voice tracking and Log Tools now allow for multiple user attachments
- Enhanced On-air library word search using a "contains" methodology

For a sneak peak, please visit our website to view our on-line video showcasing iMediaTouch V4 or download a live demo from our website at [www.imediatouch.com](http://www.imediatouch.com). OMT will also be demonstrating iMediaTouch V4 along with our other products at the NAB Show, April 12-15, 2010, at booth C1054.

Complete release notes are available by visiting our iMediaTouch on-line Help Menu. Call OMT Technologies at 1-800-665-0501 to obtain information on upgrading to V4.
